NOV 29 1983

J. Randall Lyman
Department of Public Works
830 Boonville Avenue
Springfield, Missouri 65801

Dear Mr. Lyman:

Per our conversation of November 28, 1983, please be advised that we have looked into the matter of waste disposal. Our waste consists of two different naphthas., mineral spirits, and aromatic 100-360.

We have contacted Steve Neil, of Diaz Refinery in Arkansas who we find will dispose of this waste for us.

We are sorry we have caused this problem and did not realize we were in violation. We will see that this is taken care of properly in the future.

Sincerely yours,

Bill W. Johnson

November 18, 1983

Mr. William W. Johnson, President
Color Graphic Printing Inc.
951 East Trafficway
Springfield, MO 65802

Dear Mr. Johnson:

On November 11, 1983, this office received a citizen's complaint concerning the disposal of, possibly, waste solvent at the rear of your facility at 951 E. Trafficway. An inspection by this office revealed that a semi-solid, oily residue appears to be disposed of periodically just to the north of the paved lot at the rear of your facility.

Please be advised that a discharge or improper disposal of solvent or related wastes is a violation of City, State, and Federal law. These laws contain severe penalties for violation.

You are advised to contact this office within five (5) days concerning your knowledge in regard to the composition and disposal of this material. This office maintains periodic surveillance and will be watching this area closely.

If you have any questions or we may be of any assistance, please do not hesitate to call.

Yours truly,

J. Randall Lyman
Water Pollution Control Inspector III
Surveillance & Enforcement
